Element P50BT Scanner Operation Guide

element™

Basic Instructions

Power on: Press button for 3 seconds to power on

Power off: Scan "power off" barcode or wait for it to power off automatically.

Low power warning: Di-Di-Di-Di beep will sound when power is low; if not charged, the scanner will power off

Battery charging: Two charging ways:

1. Connect USB-C cable to scanner
2. Place the scanner on the cradle to charge

Red light will appear when scanner is charging, when finished charging – the light will turn green
